

Social and Personal

An engagement recently announced in Charlotte, N. C., of much interest to society here was that of Miss Sarah Philp Jones, daughter of the late Dr. Morehead Jones and Mrs. Jones, of that city, and Hugh A. Morson, also of Charlotte. The wedding will be celebrated the first week in October, and will be a big church affair, and a good deal of fashionable entertaining will be done in honor of the bride party, which will include several Richmond girls. Miss Jones is a very beautiful girl, and has been much admired during her several visits to friends in Richmond.

Traveling in the West.
Mrs. Cary Ellis Stern, with her brothers, Wythe and Dudley Bowe, and Miss Mattie Penn, of Martinsville, left last week to visit Lieutenant and Mrs. Harry L. Hodges at Fort Yellowstone, Wyoming. After their visit to Lieutenant and Mrs. Hodges, the party will spend some time visiting places of interest on the Pacific coast, and will also visit Yellowstone Park before their return to Virginia.

Lieutenant Hodges is a son of Colonel and Mrs. Harry Hodges, of Norfolk, and Mrs. Hodges is a daughter of Mr. and Mrs. N. W. Bowe, of Richmond. They will visit relatives in Virginia before going to West Point, where Lieutenant Hodges is detailed for four years as instructor in the Military Academy.

Visiting in Louisiana.
R. M. Kent, of this city, and Dr. Charles W. Kent, of the University of Virginia, have been recent guests of Mrs. F. L. Woolfolk and Miss Ellen Kent, at "Kalona," near Louisiana. Dr. Kent, with his wife and daughter, Misses Eleanor Kent and Elise Miles, expects to sail some time this month from San Francisco for Honolulu, where they will join Mrs. Kent's parents, Professor and Mrs. Francis Smith.

Guests in Orange.
Mrs. E. Victor Williams and her little daughter, Catherine Murat Williams, of this city, are spending the summer as the guests of the former's parents, Mr. and Mrs. John G. Williams, at their home near Orange. Mr. Williams motored to Orange from Richmond in his machine last week, spending several days in that place. Mr. and Mrs. Williams, John Williams and Miss Mary Page Williams, of Orange, made a short trip to Charlottesville and Staunton in Mr. Williams's car before the latter's return to Richmond.

Going North.
Dr. and Mrs. Thomas Williams will leave Washington for a visit to Long Island about the latter part of this week. From Long Island they will go to Narragansett for the remainder of August, and will return some time in August. Dr. and Mrs. Williams will also make a short tour of the Virginia mountains late in August, and will

LOBSTER MARKET CORNERED.

Crustaceans Used to Make Salad for Mrs. Vanderbilt's Guests.

[Special to The Times-Dispatch.]

Newport, R. I., July 9.—Miss Elsie French Vanderbilt cornered the lobster market yesterday, and the forty guests whom she entertained at a dinner-dance last night partook of salad which monopolized every crustacean that could be captured. The dance was given in the beautiful neoclassical ball room.

The lawn was illuminated, and marquis tents were put up for smoking.

Big Apple Crop Expected.

[Special to The Times-Dispatch.]

Charlottesville, Va., July 9.—The apple crop around Covelloville, this county, promises to pan out better than expected. Recent reports from growers in that section are to the effect that they are counting on as large a crop as last year, and that the quality is exceedingly fine.

RURAL SUBJECTS TO BE DISCUSSED

Annual Conference at University of Virginia Will Be Held Next Week.

[Special to The Times-Dispatch.]

Charlottesville, Va., July 9.—The annual rural life conference, held in connection with the summer school at the University of Virginia, opens to-morrow week, and concludes on Friday, July 21. The program, which has just been completed, includes well known speakers on rural subjects from all parts of the country. It is of a very practical nature, and of especial interest to farmers, women, ministers, educators, rural school officials, legislators, village business men and all those who feel that country life deserves a fuller consideration on the part of the public than it has heretofore received. Round table conferences will be held on the lawn each afternoon at 4:45 o'clock, with Hon. O. B. Martin, of the United States Department of Agriculture, presiding.

Angus Blakey Echols, instructor last session in the department of mathematics at the University of Virginia, has accepted a position as instructor in mathematics in the West Texas Military Academy, located at San Antonio, Tex. Mr. Echols was connected with McGuire's School, of Richmond, for two years. He will leave for Texas about the first of September.

VERY SUCCESSFUL MENHADEN SEASON

Fishing Steamers Do Largest Business in History of Industry.

[Special to The Times-Dispatch.]

Lancaster, Va., July 9.—Reports received here from the fishing steamers in the Chesapeake Bay indicate that the catch of menhaden during the past week was the largest in the history of the industry. All the fishing steamers seem to have done a fine business.

The season for menhaden fishing has thus far been one of the most successful on record. On the other hand, fewer edible fish, such as spot, trout and perch, have thus far been caught in the Rappahannock River and its tributaries than for many seasons past.

The long continued spell of dry, hot weather is having a disastrous effect on gardens and corn fields. Much of the corn is very young, having been planted during the month of June. The Irish potato crop is very short, and in many instances a total failure. Those who were so fortunate as to have potatoes to ship have received high prices for them, ranging from \$3 to \$4 per barrel.

Miss Mildred Brent, who has been visiting her parents here, has gone to New York to attend the summer session of Columbia University in that city.

Mrs. John H. Ayres and children, of Accomac, are visiting the family of Julian Snow, at Wicomico Church.

The members of Lawson-Ball Camp of Confederate Veterans held their midsummer meeting here Wednesday and Thursday last.

Epidemic of Typhoid.

There is an epidemic of typhoid fever prevailing in the Monksconk neighborhood, on the Rappahannock River. Mrs. Warner Ball and two of her daughters are suffering from this malady, and several other cases are reported from the same locality. The disease is supposed to have originated from drinking water from a polluted well.

Miss Charlotte Ray Bellows, daughter of Captain and Mrs. Joseph F. Bellows, of Ocean, in Lower Lancaster, and Thomas Whitfield Moore, of Northumberland county, were married last week in Whitestone Methodist Church. The ceremony was performed by the Rev. J. D. Hoxier. After a reception at the home of the bride's parents, the newly married couple left on the Rappahannock steamer for Baltimore, Washington and other Eastern cities.

Captain and Mrs. Robert Snow, of Wicomico Church, have issued invitations to the marriage
